## A Strategic Solution for Law Enforcement Evidence Management

Primary Marking Systems, Inc. patented mobile evidence collection solution, eTWIST<sup>®</sup>, improves efficiency, increases conviction rates, and eliminates hidden inefficiencies and opportunities for errors in processes, yielding dramatic increases in data accuracy.

- Android and iOS
- Touch screen
- Photos
- Videos
- Recordings
- GPS Location Capture
- Barcode Scanning (For evidence tracking)
- Driver's License Reading (Auto-Search for Wants/Warrants, Driver's License parsing)
- Signature Capture
- Automatic Alert Notifications

## Proven Solutions and Proven Technology

eTWIST<sup>®</sup> will produce a the most valuable commodity in the entire world – Time. LEO's will no longer spend time sitting in front of their computers entering in repetitive data over and over and over again. No time spent uploading photos, videos, documents, recordings, etc. No time purging evidence rooms, our alert notifications will tell LEO's when it's time to dispose of evidence. With this additional time, our communities will be safer. LEO's will be able to be out in the neighborhoods, on the roadways, and in our schools, instead up holed up behind a computer screen doing data entry work.

eTWIST<sup>®</sup> allows officers to collect, document, photo and bar-code evidence in the field using Mobile Computing Devices, to upload collected evidence information via an adaptor or cellular network option on the device to law enforcement system. Tying everything together with the Officers DSN, Case#, Geo-Tracking and Time/Date stamp. "Protecting the Truth™".

## Application Capabilities

Entering in pertinent information allows agencies to make certain information is entered properly. 100% customizable to fit each agency's needs.	Android/iOS based software, uses Bar-Coding, GPS Location, IDScan, NCIC and UCR codes, designed for the unobtrusive tracking of evidence.	Officers' identify, document, record, photograph and track evidence while at the crime scene, eliminating entering repetitive data.	Evidence "Vessels" are Bar Coded & clearly labeled with their contents & Case Information providing accurate, visible documentation.

## Benefits of Law Enforcement Evidence Management

Evidence Management Mobility Solutions help streamline work functions, allowing the cost-effective tracking of evidence and the compiling of data required to meet accounting regulations while providing a complete, enterprise-wide view of evidence. Users are more productive and evidence is better managed. Chain of Custody processes are improved, helping to Protect the Truth™, while ensuring complete documentations.

Evidence Management Mobility Solutions also make financial sense. Evidence Management requires the capture of different data types (such as bar codes and RFID tags), Primary Marking & Motorola offer several devices that can scan the various data types in use throughout the organization. Capital expenses for assets are reduced, including related maintenance and customer support costs.

Primary Marking offers mobile devices for a diverse range of government users. Evidence technicians and field officers can benefit from integrated data and voice devices to connect to mission-critical information, while use of advanced data capture capabilities improve productivity and streamline the evidence capture processes.

## Why choose Primary Marking for Evidence Management?

When it comes to selecting a provider for your mobile evidence solution, choose the industry leader with a long history of proven deployments within State & Local and Federal (DoD and Civil) agencies with innovative technology – Primary Marking. With Primary Marking, agencies enjoy technology that is second nature, so your officers can stay focused on the mission – not the technology – providing the productivity increase and instant information access needed to Protect the Truth™.

Mobile devices are not just tough on the outside; they are tough on the inside, packed with processing power features that provide outstanding application performance and pervasive wireless connectivity. With Primary Marking, you get the reliability, security, manageability and superior uptime that mission-critical applications demand. Primary Marking offers the strength of the industry leader and the power of tested and proved end-to-end solutions.

For more information on how Primary Marking can help you improve the efficiency and reduce the costs associated with Evidence Management within your agency, please call us at 888-261-9178 or visit us on the web at [www.e-twist.com](http://www.e-twist.com).

## ZEBRA'S MOBILE COMPUTERS FOR GOVERNMENT APPLICATIONS

### TC70

Rugged and ready for every day enterprise use inside and outside the four walls  
Android™ operating systems  
4G/LTE (TC75 Series Only) and 802.11a/b/g/n connectivity for anywhere, anytime access to information  
Zebra's Mobility Extensions (Mx), a layer of features that transform Android from a consumer operating system (OS) to a true enterprise class Operating System.  
Mobility DNA, a suite of mobility enabling applications, development tools and utilities  
Most advanced scan engine with longer range data capture capability

### ET50

Enterprise durability, constant battery power.  
Your choice of Android™ (ET50/ET55) or Windows® (ET51/ET56), a rugged frame for extra durability in more demanding environments, two display sizes, GPS, NFC and fast Wi-Fi and cellular wireless connections — 802.11 a/b/g/n/ac/t/k/v (ET51 Windows) and 802.11 a/b/g/n/ac/d/h/i (Android) Wi-Fi and 4G LTE with the ET55 and ET56.  
When it comes to data capture, the ET50 offers it all — two integrated cameras for image capture, bar code scanning and video calls; optional advanced scan engines and innovative Bluetooth scanners for comfortable intensive bar code capture; and three methods of data entry that work even if the screen is wet — an active stylus or a finger, with or without a glove.

### XSLATE L10

Whether you opt for a high-speed 8th generation Intel® Core™-Series processors or more economical Intel Pentium® processor, your XSLATE L10 will deliver more than enough computing power. The optional 4G LTE card will give you an even greater boost if you need it, providing 600% faster download speeds and 300% faster upload speeds than previous generations. This tablet will stay powered for over 24 hours when you add on the extended-life, hot-swappable battery.
